

CS6W50 Career Development Learning (CDL) Form

Student

Student Londonmet ID: 23050337

Student Name: Kushal Chandra Shrestha

College E-mail ID: np01cp4a230063@islingtoncollege.edu.np

Mobile No: +977-9843082864

Student's work/placement address: Nepal, Remotely

Employer

Company Name: Route Studio

Company's Address: Tikhidewal, Lalitpur

Company Supervisor's Name and Position: Diken Ulak (Senior JavaScript developer)

Company Supervisor's Tel No: +977-9841740933

Company Supervisor's email address: dikenulak@gmail.com

Career Development Learning Activity

Start Date: 5th October 2025

End Date (if known):

Your role at the placement (position): Full stack developer

Brief description of your work at the placement:

As an intern at Route Studio, I will be working as a full stack developer. I will assist in developing interactive web pages using HTML, CSS, and JavaScript, and will use Next.js as the framework for frontend development. I will also be responsible for creating and managing RESTful APIs for the application using Node.js and Express.

Additionally, I will be involved in testing, debugging, and optimizing both frontend and backend functionalities to ensure an efficient system and a smooth user experience.

Proposed learning outcomes from the Career Development Learning Activity:

It is very important that you read the learning agreement guide before filling in this form. You need to list **at least 7 learning** outcomes, and at least **two** learning activity should be closely relevant to the course you are doing at the university.

Learning Outcome ID	Learning outcomes By the end of my work placement, I will be able to develop what skills or knowledge: (e. g. develop my XXX skills, enhance my knowledge of XXX)	Activities and tasks I will achieve this learning outcome by carrying out what tasks (e. g. participating in a Web development project, or to work in a team, or to engage in group discussion)	Evidence Evidence I could use to demonstrate that I have achieved this learning outcome? (e. g. feedback from the employer, artefacts I will develop, screen shots or video capture, meeting minutes)
LO1	I will develop my communication skills by effectively interacting with team members.	I will improve my communication skills by actively participating in meetings discussions and daily standups.	I will provide screenshots of chat, copies of email and meeting minutes.
LO2	I will develop my teamwork skills by collaborating efficiently and contributing to group tasks.	I will improve my collaboration skills by collaborating on development tasks and participate in group discussions. I will coordinate with group members to achieve the shared goal.	I will provide screenshots of group discussions, shared collaborative boards, team collaboration report and git commit history.
LO3	I will develop my problem-solving and analytical thinking skills by identifying issues and creating effective solutions.	I will develop my problem-solving skills by identifying bugs and analysing their causes. I will analyse and test different logical approaches before implementation to improve code efficiency.	I will provide screenshot of Git commits showing bug fixes, documentation of the fixes and justifications of solutions provided.
LO4	I will develop my independent learning skills by exploring new concepts and technologies on my own.	I will develop my ability to learn independently by exploring new technologies, building with new technologies and solving problems without constant guidance.	I will provide pictures of handwritten notes, screenshot of self-initiated projects, screenshots of using newly learned tools.
LO5	I will develop my research skills by gathering, analyzing, and utilizing relevant information.	I will enhance my research skills by exploring new frameworks, tools and best practices. I will research from reliable sources, compare	I will provide pictures of handwritten research notes, documentation of researched topics, comparison between the research.

		different results and apply them in my work.	
LO6	I will develop my time management skills by prioritizing tasks and meeting deadlines effectively.	I will develop my time management skills by using task planners, setting and meeting deadlines.	I will submit the screenshots of progress trackers , timelines, completed task lists and task logs.
LO7	I will develop my frontend development skills by designing and implementing user-friendly interfaces.	I will develop my frontend development skills by building interactive web applications using HTML, CSS, JavaScript and Next.js.	I will provide the screenshot of the developed application, git commits, and project source code.
LO8	I will develop my backend development skills by building and managing server-side logic and APIs.	I will enhance my backend development skills by creating and managing RESTful APIs, handling request and responses, connection to database while ensuring smooth and efficient system.	I will provide documentation of APIs, postman test results, screenshots of backend code, git commits.
LO9	I will develop my database management skills by organizing, storing, and retrieving data efficiently.	I will develop my database skills by managing data through ORMs. I will perform create, read, update and delete operations using ORM and integrate it with backend APIs.	I will provide backend code integrating ORM models, screenshots of CRUD operations from ORM. API responses demonstrating data validations and handling.
LO10	I will develop my testing skills by identifying bugs and ensuring the quality of applications.	Write unit tests and functional tests for the features developed.	I will provide the screenshots of test scripts, test results, console outputs and bug tracking records.
